# Introducing ultimate convenience: the **Modena digital** **100°C boiling water tap**

Fusing state-of-the-art technology with safety features, user-friendly functionality and stunning design, our new intelligent digital taps enable you to access 100° filtered boiling water at the touch of a button. Sleek and innovative, with a cutting-edge digital touch display, the Modena also enables you to switch between 100° boiling water and filtered cold water instantly. From brewing the perfect cup of tea to streamlining cooking, our tap eliminates the downtime of waiting for a kettle to boil, saving you time, money and energy and changing how you use water every day.

## **Brim-full of benefits**

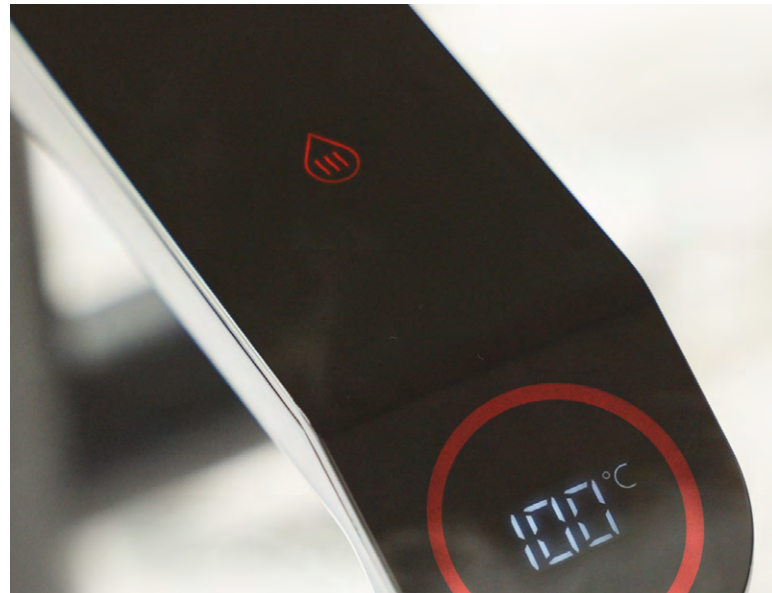

- Filtered 100° boiling, filtered cold and mains supplied hot water.
- Elegant, premium design and finish.
- Easy-to-use digital touch display.
- Safety lock for boiling water function.
- Energy-saving 'Eco mode', which reduces stored water temperature to 60°C.
- Discrete, compact under-counter boiler tank with digital display.
- 2-year warranty as a standard.
- Order online for free delivery across the UK.
- Optional buy now, pay later option.

## Digital precision backed by innovative design

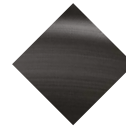

The Modena digital tap leads the way in pioneering design and practicality. It enables you to effortlessly dispense filtered boiling water using a faucet-mounted digital touch display that also shows the boiler tank's water temperature.

- For 100° water, just deactivate the safety lock by holding it down for two seconds, then tap the boiling water button.
- You can also engage Eco mode, which saves energy by reducing the water temperature to 60°C. Exit Eco mode by pressing the heating switch.
- For cold water, use the side handle to release pre-filtered cold water.

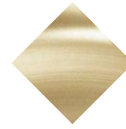

Available in Polished Chrome, Matt Black, Unfinished Brass and Stainless Steel.
